

SECRETFILE
LEAFLET
ROCKET.

25 February 1954

MEMORANDUM FOR: CHIEF, TECHNICAL SERVICES STAFF

ATTENTION: CHIEF, TSS/TO

SUBJECT: Request for Customer Comments Concerning Proposed
Leaflet Rocket (TSS Project No. MD-91)

- REFERENCES:
- A. Your memorandum, dated 25 January 1954, to EE;
same subject
 - B. [] dated 15 January 1954, subject:
[] Rocket and Balloon Activities
 - C. [], dated 27 January 1954, separate cover
enclosure

1. Since making the original request for a rocket leaflet dispersing unit, [] components of this Division have developed a mortar type leaflet dispersing unit presently suited to their immediate needs. As far as we can determine from the single report, the mortar appears to be simple and effective and to have general performance and characteristics required in future operations of this kind. The mortar's performance and characteristics were summarized in [] (Attachment A).

2. [] is being asked to forward more detailed information regarding size, weight, range, method of procurement, and a sample to Headquarters. Upon receipt, all information and the sample will be forwarded to you.

3. An additional mortar type leaflet dispersing unit has been developed [] and was forwarded to Headquarters as [] (Attachment B). We request as complete an analysis as possible of the mortar's capabilities and characteristics, as well as recommendations for any design improvements which you may recommend. The mortar is armed and has been given only a visual examination.

4. In reply to subject memorandum, this Division has no request as this time for further development or research by TSS for a rocket leaflet dispersing unit until information has been received [] concerning the capabilities and adequacy of the mortar type unit developed there.
